# JIM'S JAB...

We welcome our guest speaker, **Coach Robbie Gates**, who will let us know how great our

Greyhounds will be this 2010 football season.

Last week we welcomed our first students from WES 5<sup>th</sup> grade. Welsh High scrimmaged against the Iowa Yellow Jackets and played well. At the Jamboree, the team faced Jennings, a real Triple A threat. They travel to Loreauville for their first game tomorrow evening. Please support our team!!!

Kudos to **Bengt** for the splendid work he has done as editor of the District 6200 newsletter which can be uploaded at [www.rotary6200.org](http://www.rotary6200.org)

Don't forget to get in touch with **Kyle** about helping with our first fundraiser, *Roastin' with Rosie* in Jennings on the 10<sup>th</sup> and 11<sup>th</sup> of September.

Pat – a Herculean effort of strength

## Foundation Approves First Global Grant

Arnold R. Grahl

Rotary International News -- June 16, 2010

The Rotary Foundation has approved the first global grant under the Future Vision pilot, began on July 1, for a project to combat the spread of dengue fever in Indonesia.

With a total project budget of roughly \$39,000, Rotarians in districts 7980 (Connecticut) and 3400 (Indonesia) aim to help disrupt the breeding cycle of the mosquitoes that transmit the disease in Kadipiro, a community of 49,000 factory workers on the outskirts of Surakarta, Central Java, Indonesia.

Dengue fever is a painful and debilitating disease that is particularly prevalent in tropical and subtropical urban settings. With no vaccines available to halt its spread, the illness affects 50 to 100 million people annually, according to the World Health Organization, and causes about 22,000 deaths a year.

The global grant includes \$15,660 from the Foundation, which will be combined with \$7,740 in District Designated Fund (DDF) allocations from the two districts, and another \$15,844 raised by participating Rotary clubs. The project

supports the disease prevention and treatment.

Most of the funds will go toward hiring contractors to install white ceramic tiling on the interior surfaces of Indonesian-style cement bathtubs in 900 homes, making it easier to spot gray mosquito larvae spawned in the tubs.

To be continued...
